MILLER RESTAN

FOR CITY COUNCIL

Nobody builds a town alone.

I’m running for City Council because I care deeply about Terrace and want to give back to the place I’m proud to call home. Working alongside you, I want to help build a stronger community for the families and businesses that make Terrace what it is.

My priorities for our community

MILLER RESTAN
COUNCIL 2026

01 A community that feels safe

People deserve to feel safe downtown, in their neighbourhoods and accessing local businesses.

Community safety & policing
Resources and partnerships to respond effectively to crime and public safety concerns

Homelessness
Compassion with accountability. The city cannot solve this alone.

Toxic drug crisis
Working with health, housing, policing and provincial partners.

02 A budget that holds up

Costs are rising, and residents should not have to absorb every pressure through their property tax bill.

Property taxes & city spending
Scrutinize spending; protect the services residents rely on.

The 2028 funding challenge
Plan early instead of leaving future taxpayers scrambling.

Water, sewer & aging infrastructure
Maintain what Terrace depends on while preparing for growth.

A stronger tax base
Economic development that brings lasting revenue and eases the tax burden.

03 A town with room to grow

Terrace needs more housing, strong infrastructure and the services that let people build a life here.

Housing supply & affordability
Make it easier to build the right housing, with strong neighbourhoods.

Responsible development
Infrastructure, services and land use that keep pace with growth.

Downtown revitalization
A downtown that is safe, active and good for local business.

Child care
More spaces so families can work, live and stay in Terrace.

Safe community. Sound finances. Responsible growth.
